P R O F I L E

Enthusiastic MCA student with a strong passion for technology and management, seeking a role as a Developer. Eager to leverage my skills and experiences in a professional setting while contributing to and learning from the organization.

A C A D E M I C A N D N O N - A C A D E M I C E X P E R I E N C E

ACTIVE ENGAGEMENT IN YOUTH INNOVATION AND ENGINEERING COMMUNITIES (IEEE).

- I am an active member of IEEE, contributing to various projects and initiatives that promote technological advancement and professional development within the engineering community.

Smart Garbage Management System Developer.

- Designed and developed a smart garbage monitoring system with sensors for automatic opening and closing, real-time indication of garbage levels, and location tracking.

INNOVATION VERTICAL HEAD.

YUVA Innovation Chapter Chair, Kalinga University.

- As the Yuva Chair for the Innovation Vertical at YUVA's Raipur chapter, I led programs that helped young people learn and grow, enhancing their skills and education for the betterment of our community.

P R O J E C T S

- **Food Delivery App - Foodi.**
  Developed a food delivery app with React JS frontend, JavaScript backend, and MongoDB database. Implemented secure payment options, real-time order tracking, and smart search features. Ensured cross-browser compatibility and enhanced password security with Bcrypt.js for a seamless and secure user experience.
- **Mental Health Platform - ShenCare.**
  Developed a mental health platform offering guided meditations, mood tracking, and breathing exercises with a calming, responsive UI. Ensured user privacy and security by implementing Firebase for real-time data sync and authentication, and Bcrypt.js for password protection. Built with React (frontend), JavaScript (Node.js, backend), and Firebase.

H O B B I E S

Traveling: I enjoy traveling, which has enhanced my adaptability, curiosity, and love for new experiences, helping me embrace challenges with an open mind.

Gaming: Gaming sharpens my strategic thinking and quick decisionmaking skills while keeping me tech-savvy and engaged with emerging technologies.
