## A C A D E M I C A N D N O N - A C A D E M I C E X P E R I E N C E

### ACTIVE ENGAGEMENT IN YOUTH INNOVATION AND ENGINEERING COMMUNITIES (IEEE).

- I am an active member of IEEE, contributing to various projects and initiatives that promote technological advancement and professional development within the engineering community.

### Smart Garbage Management System Developer.

- Designed and developed a smart garbage monitoring system with sensors for automatic opening and closing, real-time indication of garbage levels, and location tracking.

### YUVA Innovation Chapter Chair, Kalinga University.

- As the Yuva Chair for the Innovation Vertical at YUVA's Raipur chapter, I led programs that helped young people learn and grow, enhancing their skills and education for the betterment of our community.

## P R O J E C T S

- **Foodi - Food Delivery App.**
  Developed a food delivery app with React JS frontend, JavaScript backend, and MongoDB database. Implemented secure payment options, real-time order tracking, and smart search features. Ensured cross-browser compatibility and enhanced password security with Bcrypt.js for a seamless and secure user experience.

- **ShenCare – Mental Wellness Web Platform.**
  Developed a mental health platform offering guided meditations, mood tracking, and breathing exercises with a calming, responsive UI. Ensured user privacy and security by implementing Firebase for real-time data sync and authentication, and Bcrypt.js for password protection. Built with React (frontend), JavaScript (Node.js, backend), and Firebase.

## H O B B I E S

**Traveling:** I enjoy traveling, which has enhanced my adaptability, curiosity, and love for new experiences, helping me embrace challenges with an open mind.

**Gaming:** Gaming sharpens my strategic thinking and quick decisionmaking skills while keeping me tech-savvy and engaged with emerging technologies.
